

PORTABLES

SIDE-CARTRIDGE DRY CHEMICAL EXTINGUISHERS

AFEX handheld ABC dry chemical extinguishers are a great compliment to your AFEX fire suppression system and a critical component of an effective fire protection program.

AFEX portable fire extinguishers have a corrosion and chip-resistant finish to withstand harsh environments. They are side-cartridge operated for effectiveness, reliability, and ease of service. Even the mounting brackets are heavy-duty, ensuring your extinguisher remains where you need it when you need it.

AFEX portables are available in 10, 20, & 30-pound sizes.

USING A PORTABLE FIRE EXTINGUISHER

For maximum effectiveness, use the **PASS** method when operating an AFEX portable fire extinguisher.

- P**ull - the safety pin and depress the push lever
- A**im - the nozzle at the base of the fire
- S**queeze - the handle to discharge the extinguisher
- S**weep - the nozzle from side to side

Ensure you maintain a safe distance from the fire while operating the fire extinguisher.

KEY FEATURES

- Effective against ABC fires
- Side-cartridge operated
- Durable finish
- Rugged design
- Easy to service
- Heavy duty bracket
- UL listed
- USCG approved
- Meets DOT specifications
